## ABOUT US

With over 30 years industry experience, Planglow is a market leading provider of labels, labelling software, food safety items and plastic-free, compostable packaging to the catering industry.

We offer a wide range of colourful A4 sheet and roll labels, alongside a comprehensive selection of plant-based, compostable packaging and other complementary products to match. To print your labels we offer two solutions:

LabelLogic Live (our online subscription-based app) and LabelLogic (our free on loan CD Rom Software).

All of the products you see in this catalogue can be customised with your own logo and branding by our inhouse design specialists. Our dedicated regional account managers, friendly customer service and support teams can advise you on the best products for your business.

*Can't find what you're looking for?  
Call us on 0117 317 8600 and we'll do our best to help.*

## HOW DOES IT WORK?

To use LabelLogic all you need is a PC and a desktop printer or, if you're using LabelLogic Live, a printer and any internet connected device (including mobile phones, tablets and Macs). Choose one of our label designs or create your own with the help of our inhouse design team.

### PLANGLOW LABELS

1. Pick a style and shape from our catalogue that works best with your products
2. Decide how many you need
3. Choose which software solution works for you
4. Anything else? Choose menus, bags, cups and wedges from our catalogue to complement your labels
5. Place your order – check out page 53 for ordering, delivery and payment options
6. You will receive your labels and software in 2-3 working days (LabelLogic Live subscription within 24hrs)

### YOUR OWN LABELS

1. Call us to arrange a meeting with your Account Manager and discuss your label options
2. Decide how many you need: (minimum order is 10 boxes of sheet labels)
3. Choose which software solution works for you
4. Anything else? You can have menus, bags, cups, packaging and more to match your labels
5. A design or designs are created based on your brief, these are presented (on an artboard) along with a quote
6. Agree possible revisions and then complete our order form to sign off artwork and print
7. You will receive your labels and software in 2-3 weeks from approval (LabelLogic Live subscription within 24hrs)

## FINALLY

Subscribe to the LabelLogic Live app or install the LabelLogic software onto your PC and you're ready to go!

Look out for the  symbol for labels that are compatible with LabelLogic Live only.

## How Can I Dispose of Planglow Packaging?

Next to each packaging product description you will find a symbol which explains how our products can be disposed of:

### Suitable for industrial composting

This means that this product will break down in a waste digester along with your food waste.

### Suitable for home composting

This means that this product will break down in a home compost heap.

### Suitable for recycling

This means that this product is suitable for recycling.

To find out more please refer to our environmental statement

Watch out for our Fresher for Longer stamp, these packaging items are designed to extend the shelf life of your grab and go offering.

### Planglow Labels

All of our labels (with the exception of FR0001/2) are paper based which means that they can be disposed of with our compostable packaging items.

# LabelLogic Live

## Next Generation Labelling

LabelLogic Live is our award-winning cloud-based labelling software. It is - in a nutshell - a really quick and easy way for you to create labels, menus and ticketing online and then print using your own desktop printer.

### Why Switch to LabelLogic Live?

-  **All You Need Is...**  
A web connected device (computer, laptop, mobile, tablet or a smart TV) and normal desktop printer.
-  **Everything is 'on the Cloud'**  
Cloud-based essentially means 'online', this provides instant access with no installation required - not to mention no more sheet allocation!
-  **But Will It Work on My...?**  
LabelLogic Live has been designed to work on any platform – Windows, Mac / iOS, Linux and Android – as well as any web connected device (see above).
-  **Automatic Updates**  
Because LabelLogic Live is fully cloud-based (online), we can roll out updates anytime - either in line with legislative changes or simply to make the software better.
-  **Need Nutritional Labelling? Piece of Cake**  
Displaying nutritional tables and Reference Intakes is quick and easy to do as LabelLogic Live incorporates a full nutritional recipe builder. This includes McCance and Widdowsons most current database 'The Composition of Foods: Seventh Summary Edition' which contains over 3,000 of the UKs most commonly consumed foods.
-  **Secure**  
Hosted on Amazon's leading cloud infrastructure, your data is always accessible and always safe!

### LabelLogic Live Just Got Even Better!

-  **NEW:** Import Data – (such as recipes or ingredients) from other software
-  **NEW:** Enhanced Template Designer – lots of new features including 'undo' function and the ability to flip / angle labels
-  **NEW:** EAN-128 barcodes / code-128's now supported

## Part of a Large Multi-Site Operation?

LabelLogic Live enables your head office to create, roll out and lock down data and templates without having to police for consistency or errors. This provides many benefits:

- Create, manage and control a master database, granting access as required
- Changes are applied instantly and to all sites
- Substantial cost and time savings
- Ensures consistency across all sites
- Localised changes (such as regional pricing) as and where you permit only

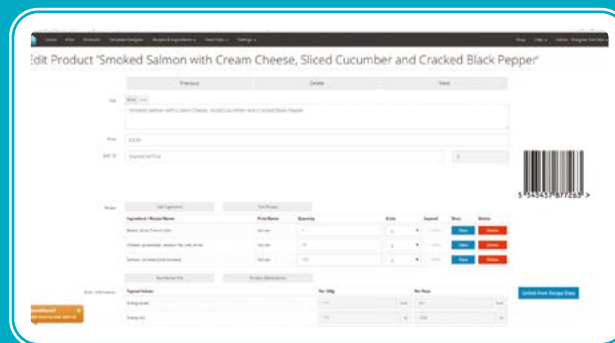

### Flexible Label Design

Includes a large range of predesigned templates and an easy to use tool bar to design and edit your labels.

## How Does It Work?

LabelLogic Live is a subscription based service. Please contact our Customer Service team to purchase labels to use in conjunction with LabelLogic Live and ask the team to sign you up.

We will then send you an email (within 24hrs) with your login details and a link to the subscription page where you will be asked to create your own password.

### Improved Product Management

Build recipes and add product related information from within your products.

## Industry-Leading Support

We've made it even easier for you to get the support you need:

- Expert telephone support
- Remote support
- Instant online chat
- Out of hours messaging system via instant chat
- Helpful walkthrough guides
- Dedicated regional Account Managers

# ECOCO COLLECTION

Our Ecoco Nutri Labels are available in sheet and roll formats, use to seal your sandwich and salad packs and display barcodes and nutri information on the back

Plant-based by design, plant-based by nature, this compostable range utilises materials that can be returned to the earth. Creating a leafy, earth-kind presentation that helps to highlight your environmental stance, Ecoco blends a subtle green leaf design with a rustic kraft finish. The collection also features tree ring stamp detailing and eco messaging which clearly states what each product is made of, on pack as well as how it may be disposed of after use.

The Ecoco Collection includes three wedges, a baguette bag, tortilla wrap pack, small and large salad packs, bloomer pack, a multi-bag and three matching labels!

Ecoco 16 per sheet label is made from frosted Ecopaque, which looks like plastic but is actually paper!

Like all of our packaging items, Ecoco clearly states that it is made from plants on every pack

## CUSTOMISE YOUR PRODUCTS

### Customise our products with your branding

Most of the products featured in this catalogue can be custom printed. When designing your own products there are many options available to you. Your local account manager will be able to advise you on the best solution to meet your own unique needs and budget. This includes quantities required, the best shape for your product, the colours that work most effectively with your branding and the materials available. Our in-house design team will then develop your brief into a range of exciting new concepts to help sell your products and strengthen your brand.

## SUPPLYING A LOGO

If you are supplying a logo or photographic image, they must be supplied in the following formats:

- Logo: EPS vectorised Illustrator format
- Photographic image: 300dpi in Jpeg or Tiff format

For delivery times and minimum orders see page 53.

If you would like more information about this service please call our friendly Customer Service team on 0117 317 8600 and they will put you in touch with your regional Account Manager.

"Eight months in since we rebranded and sales are up 25%. People are very impressed by the new look and say how much they like it. It's changed our customer base too - it's become more professional - which has allowed me to put my prices up by 10%. At the end of the day, I wanted to show our customers how much thought goes into everything and this is precisely what it's done."

**ALEX BRITTAIN**  
OWNER, THE BAKEHOUSE DELI

"The new "Mwy Na" concept has proved to be extremely popular with visitors and staff and the deli setting allows them to forget they're in a hospital. In terms of how successful the investment has been, gross revenues have increased on both sites by £30K per month in the first 4 months of business."

## FAQ'S

### IS THERE A CHARGE FOR THE SOFTWARE?

LabelLogic Live, our cloud based system, is a subscription based service starting at £10 per month (based on a 12 month subscription). LabelLogic, our CD ROM software, is provided free on loan. Both software programs must be used in conjunction with our labels and a minimum purchase of one box of labels or £50 label spend is required. For further details please contact our customer service team.

### HOW MANY LABELS WILL I GET?

There are always 500 sheets of labels in a box and 100 sheets in a pack but the number of labels you receive in total depends on the size of the label and how many can fit on a sheet. (Check the fact files for details).

### WHAT TYPE OF PRINTER CAN I USE?

All of our sheet labels can be used with a laser printer; however some are not compatible with inkjet printers – always check the fact files!

### WILL THE LABELS COME PREPRINTED?

Labels come with just the label design; any over print (e.g. title, description, price etc) must be added using our software. If you would like us to overprint your labels you can use our LabelLogic Direct service (see page 6 for details).

### CAN I HAVE LABELS WITH MY LOGO ON THEM?

Yes, you can have labels designed specifically for you, in any shape, size or colour; however the minimum order is 10 boxes (or 2 boxes for digital print). Alternatively, if you do not use this volume you can import your logo into LabelLogic or LabelLogic Live and overprint it yourself.

### DO YOU SUPPLY LABELS ON ROLLS?

Yes, we have a small selection of roll labels (**See pages 47-48**) or alternatively you can also have your own branded roll labels.
